Class meetings: MWF 11:00-11:50AM, in Neckers 410.

Office hours: MWF 12:00-1:00PM, TR 11:00AM-12:30PM.

### 2 Prerequisites:

This course continues on the concepts built in PHYS-520A. Thus, “PHYS 520A: Electromagnetic Theory” is a prerequisite for this course. In PHYS-520A, we covered Maxwell’s equations and the corresponding conservation laws, macroscopic electrodynamics, dielectric models, and Green’s function technique to solve problems in electrostatics. We will continue to assume an earlier exposure to Maxwell’s equations and special relativity at undergraduate level. Familiarity with the following topics will be assumed: vector calculus, complex variables, partial differential equations.

### 3 Course description

We will begin where we left last semester—Bessel functions. Our immediate goal will be to find the Green’s function for cylindrical geometries. In continuing our pursuit of finding solutions to Laplace’s equation we shall introduce surface spherical harmonics, which will be suitable for studying spherical geometries. We shall then move on to magnetostatics. We shall cover radiation in detail. We shall build techniques to study propagation of electromagnetic waves in dielectric mediums. Scattering and diffraction will be covered, if time allows.

## 4 Course work

### Evaluation

Homework	30 %
Take-Home Exams ( $2 \times 10$ %)	20 %
Midterm Exams ( $2 \times 15$ %)	30 %
Final Exam	20 %

### Homework

Homework will be assigned roughly every ten days. It will be available on the course web-page. Students are encouraged to discuss homework problems with their classmates, instructor, and anyone. But, each student should submit their own work describing detailed steps of thought process.

### Take-Home Exams

Two take-home exams will be administered. It will be available on the course web-page.

### Exams

Three examinations (including the final exam) will be administered.

Midterm Exam I	February 21 (Friday, 6:00pm-8:00pm)
Midterm Exam II	April 4 (Friday, 6:00pm-8:00pm)
Final Exam	May 6 (Tuesday, 12:50pm-2:50pm)

The midterm exams will assess you on concepts covered in lectures and homework. Midterm exams will be an hour-long exam, but, to remove the time factor, you will be allowed to take extra time. All the midterm exams will be cumulative, but you are recommended to concentrate more on topics covered in the later part of the semester. The Final Exam will be graded such that, if you score within twenty percent of your semester average, your scores will not go below your semester average. Typically, the Final Exam could bring up your grade, and rarely brings it down.

### Grading

The grading will be done on a scale of 0-100. This raw score should be used to assess your knowledge in the subject. The raw score will be converted to the university scale using the following formula

$$(\text{Your Score}) = \frac{(\text{Raw Score})}{2} + 50. \quad (1)$$

For example, a Raw Score of 60 will lead to Your Score of 80.

## 5 Syllabus Attachment

The Provost Office has created a “Syllabus Attachment” to assist the student. It lists and provides web links for many elements that are important for a student. Kindly find it attached.

### SPRING SEMESTER HOLIDAYS

Martin Luther King, Jr.'s Birthday 01/20/2014

Spring Vacation 03/08—03/16/2014

### WITHDRAWAL POLICY ~ Undergraduate only

Students who officially register for a session may not withdraw merely by the stopping of attendance. An official withdrawal form needs to be initiated by the student and processed by the University. For the proper procedures to follow when dropping courses and when withdrawing from the University, please visit <http://registrar.siu.edu/pdf/ugradcatalog1314.pdf>

### INCOMPLETE POLICY~ Undergraduate only

An INC is assigned when, for reasons beyond their control, students engaged in passing work are unable to complete all class assignments. An INC must be changed to a completed grade within one semester following the term in which the course was taken, or *graduation*, whichever occurs first. Should the student fail to complete the course within the time period designated, that is, by no later than the end of the semester following the term in which the course was taken, or graduation, whichever occurs first, the incomplete will be converted to a grade of *F* and the grade will be computed in the student's grade point average. For more information please visit:

<http://registrar.siu.edu/grades/incomplete.html>

### REPEAT POLICY

An undergraduate student may, for the purpose of raising a grade, enroll in a course for credit no more than two times (two total enrollments) unless otherwise noted in the course description. For students receiving a letter grade of A,B,C,D, or F, the course repetition must occur at Southern Illinois University Carbondale. Only the most recent (last) grade will be calculated in the overall GPA and count toward hours earned. See full policy at

<http://registrar.siu.edu/pdf/ugradcatalog1314.pdf>

### GRADUATE POLICIES

Graduate policies often vary from Undergraduate policies. To view the applicable policies for graduate students, please visit

<http://gradschool.siu.edu/about-us/grad-catalog/index.html>

### DISABILITY POLICY

Disability Support Services provides the required academic and programmatic support services to students with permanent and temporary disabilities. DSS provides centralized coordination and referral services. To utilize DSS services, students must come to the DSS to open cases. The process involves interviews, reviews of student-supplied documentation, and completion of Disability Accommodation Agreements.
